

Canadian safety course (CfSC) firearms handling Duration of the course : 8 to 10 hours (including testing)

Cost : \$71, including a manual (268 pages), a practice test and theory examination.

This course provides the knowledge required for the safe handling of firearms. It is intended for any person aged 12 and more. The success of the full course (presence in the room and review) combined with the ICAF course is required to obtain a certificate of Hunter (category firearm). The Hunter certificate or the certificate of achievement obtained as a result of this course is required to complete a permit application for possession and firearm acquisition without restrictions (mainly the long guns for hunting). It is possible to undergo the examination directly without the course, at a cost of \$40, to later apply for a permit of weapon to fire, **but it does not allow to obtain the certificate of the Hunter**, for which it will resume the whole course (including reviews).

The image shows a certificate form for the Canadian Safety Course (CfSC) in firearm handling. The form is titled "CERTIFICAT DE RÉUSSITE" and is issued by "SÉCURITÉ NATURE", the educational action of the Quebec Federation of Hunters and Fishermen. The course is "Cours canadien de sécurité dans le maniement des armes à feu". The form contains four input fields: "Numéro de certificat", "Code", "Prénom et nom", and "Date de naissance".
